## CHEMICAL TOILET TREATMENT

**SAFETY DATA SHEET  
AVAILABLE ON REQUEST**

Always refer to the descriptions on labels. Keep out of reach of children. Respect the conditions of use.

### Description

- Liquid formulation containing non-pathogenic bacteria, surface agents and bio stimulants for the treatment of chemical toilets.
- Accelerates the biodegradation of organic waste and eliminates bad smells. Non-toxic and non-caustic.
- Its regular use will highly reduce the use of hazardous chemicals.

### Product information

<b>Composition</b>	Less than 5 % : nonionic surfactants ; enzymes ; perfumes. Allergenic fragrances : benzyl fragrances, amyl cinnamal ; d-limonene ; linalool.
<b>Appearance/ Odour</b>	liquid blue / cherry
<b>pH</b>	7
<b>Density</b>	1
<b>Flash point</b>	N.A
<b>Transport N° ONU</b>	N.A
<b>Storage</b>	Keep at temperature not exceeding 25 ° C..
<b>Packaging</b>	1L

### Directions for use

<b>Compatibility / supports</b>	Specific to chemical toilets or black water tanks.
<b>Méthodes</b>	- After emptying the tank: Pour 100 ml of 605 or 1/10 of a liter every 10-liters of tank volume to treat.  - Monitor at regular intervals the tank level ensuring that the biological solution always covers the level of waste in the tank.

### Precautions for use

- Respect the onset of action, that is slower than traditional chemical. Treat regularly to not interrupt the cycle of biological action.  
Do not mix an organic product with a traditional chemical at the risk of destroying the action of the organic product.
