## WASTE WATER TREATMENT

**SAFETY DATA SHEET  
AVAILABLE ON REQUEST**

Always refer to the descriptions on labels. Keep out of reach of children. Respect the conditions of use.

### Description

- Highly concentrated liquid formulation of enzymes for the treatment of grey water and black water tanks. Use as a curative to eliminate bad smells, liquefy and digest the organic waste. Use as a preventive measure regularly to avoid bad smells and greatly reduce the use of hazardous chemicals.

### Product information

<b>Composition</b>	Non-pathogenic bacterial cultures and cleaning agents.
<b>Appearance/ Odour</b>	Liquid / Fresh
<b>pH</b>	neutral
<b>Density</b>	approximately 1 (water=1)
<b>Flash point</b>	N.A
<b>Transport N° ONU</b>	N.A
<b>Storage</b>	Keep tightly closed when not in use.
<b>Packaging</b>	1L / 5L

### Directions for use

<b>Compatibility / supports</b>	Grey water and black water tanks
<b>Méthodes</b>	<p>- Grey water tank: 300 ml for the initial dose for a 1000L tank. Then, change to a 150ml dose/1000L/ week to continue the treatment . Pour doses directly into the sink. (Run some warm water over and leave for at least 8 h)</p> <p>- Black water tank: initial dose: 400 ml / 1000L. Change to 150ml /1000L/ week to continue the treatment. Pour doses directly down the toilet bowl. (Flush and leave for 8 hours).</p> <p>Treat regularly. Preferably at night to let the product sit.</p>

### Precautions for use

- Respect the onset of action, as it's slower than traditional chemicals.
- Treat regularly to not interrupt the cycle of biological action.
- Do not mix an organic product with a traditional chemical at the risk of destroying the action of the organic product.
